Parents, it has been brought to my attention that there some parents that are believe that cutting someone off in the drop off line is acceptable. This is not acceptable! If you are in a rush to get to work then you might want to arrive a little earlier. The doors open at 8:15. It has also benn brought to my attention that some folks believe that its ok to speed down the street when you are late for drop off. On Wednesday one of our teachers was almost struck by a vehicle. This is not acceptable! If you are late for dropping off your child I ask you to please follow the drop off procedure and stop at the sidewalk leading to the school. PLEASE DO NOT DRIVE TO THE FRONT IF THE TEACHERS ARE STILL OUTSIDE. If you are finding it hard to have your children here on time you may want to consider having take the bus.
