March 18, 2020

Dear Parents,

I know that this is a complicated and confusing time. We are receiving information from State and Federal leaders and we are all subject to this influx of information that changes from day to day. That being said, I am confident that we shall all move through this and life will return to normal! I know that during times like this stress levels increase and we hope to provide as much support to our families as possible.

Our goal is to provide services to your children so that they can have as structured a day as possible. The teachers are putting together lessons so that your children can continue to learn and progress academically.

Similarly, I will remain available to your child and family. Services will be provided via phone or Zoom (an online platform that allows us to video chat). Although the exact times for service have yet to be scheduled, be assured that I will be calling you to discuss appointments. Please email me directly if you would like a phone call or video conference if you are concerned about your child between appointments. I will be available live from 8:30-3:00. However, I will be available, as always, via email at any time.

I will be in touch next week to schedule appointments. Do not hesitate to contact me via email with any concerns.

Respectfully,

Sue Lyons, M.A., C.A.G.S  
Psychologist
